ITC/ATI TAX AND DEVELOPMENT CONFERENCE 2019

2-4 JULY 2019
BERLIN, GERMANY

This is to announce our **ITC/ATI Tax and Development Conference 2019** that will take place from 2 to 4 July 2019 in Berlin, Germany!

The conference will bring together a broad range of stakeholders working in the area of domestic revenue mobilisation. These include, but are not limited to, partner countries, bilateral donors, international organisations, representatives from the private sector, civil society organisations, and academia. In particular, all members of the Addis Tax Initiative, regional and international organisations of tax administrations participating in the Network of Tax Organisations, as well as partners of the DRM Innovation Fund will be invited.

The conference will provide the opportunity for diverse voices to be heard and new synergies to be built between partner countries and development partners. It will allow reflecting on the progress made in enhancing domestic revenue mobilisation in partner countries and fostering coherent development and tax policies. With 2020 approaching, the conference will finally aim to explore how to develop the Addis Tax Initiative further to best accommodate priorities of its partner countries, development partners, and supporting organisations.

The conference programme will be as interactive as possible, featuring among other things breakout sessions, a market place and an open space. This will give all participants the opportunity to connect with each other, present their country/organisation, and articulate their respective needs and perspectives.

An official invitation with a detailed programme and further information will be sent out soon.

On behalf of the ITC Steering Group and the ATI Steering Committee,

Jasmin Froehling,
Coordinator International Tax Compact
