

**STRATEGY PLANNING WORKSHOP OF THE NETWORK OF TAX ORGANISATIONS**

10-13 February 2018, New York/USA

The Network of Tax Organisations (NTO) will hold its first Strategy Planning Workshop from 10-13 February 2018 in New York City/USA. The workshop is organised by the ITC and will be hosted back-to-back to the [First Global Conference of the Platform for Collaboration on Tax](#) (PCT), which will be held from 14-16 February at the United Nations Headquarters in New York City.

The workshop will provide an occasion for the heads of the NTO member organisations to come together and formulate the vision, values and mission, to define short- and long-term priorities and to determine a coherent strategy. To transform the initiative of enhanced cooperation into a meaningful network, the workshop will support these efforts and address highly relevant strategic challenges for the network.
